

PUBLIC BENEFIT STATEMENT AND ANNUAL REPORT
on the activities of the CSODALÁMPA Wish Granting Foundation
in the year 2023 based upon law 2011 CLXXV §28

Introduction

The CSODALÁMPA (Magic Lamp) Foundation has been granting one wish to any child, aged between 3 and 18, who suffers from a life-threatening illness, since 2003. By the end of 2023, we managed to fulfil 4948 dreams, which means that during 2023, we granted as many as

320

new wishes with the help of our sponsors and volunteers.

Similar to previous years, in addition to fulfilling wishes of sick children, the “Healing with Magic” program also gathered strong momentum. More than 2,000 children learnt magic tricks, contributing to their physical and mental rehabilitation, gaining new knowledge and making their time in hospital pass faster. According to the treating physicians, this helps not only them but also those who attend to the sick children in the hospitals.

We would like to thank, on behalf of the children benefitting from CSODALÁMPA, our old and new volunteers, supporters and sponsors, the members of our Board of Trustees, Supervisory Committee and our Ambassadors that, together, in the past 20 years, we could make more and more sick children happy and perhaps contribute a bit to their recovery.

The feedback from doctors, parents, and children who have benefitted from CSODALÁMPA, as well as close to 5000 testimonials with photos, posted on our website confirm that an unexpected positive experience, the fulfilment of a wish that has often seemed unachievable, provides strength to overcome the illness and deal with the long, unpleasant and often painful treatments.

We trust that with your support and the support of your friends and colleagues, we will be able to bring joy and further unforgettable experiences to ever more children over the coming years, also supporting the healing work of doctors.

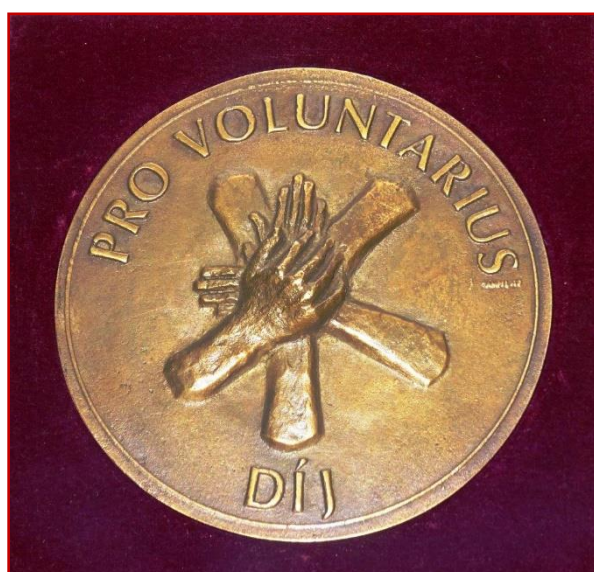

Budapest, May 28, 2024

Gábor Nagymarosy
Chairman of the Board

Gábor Patzauer
Founder, President

1. ACTIVITIES OF THE FOUNDATION IN 2023

Under court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognized CSODALÁMPA Foundation as a public benefit organization, the conditions of which we have continued to fulfil.

1.1 Target group and achievements

The Foundation focuses on children aged between 3-18 years who suffer from life-threatening illnesses and receive treatment in Hungary. The objective of the Foundation is to alleviate the mental trauma associated with their treatment and support their recovery.

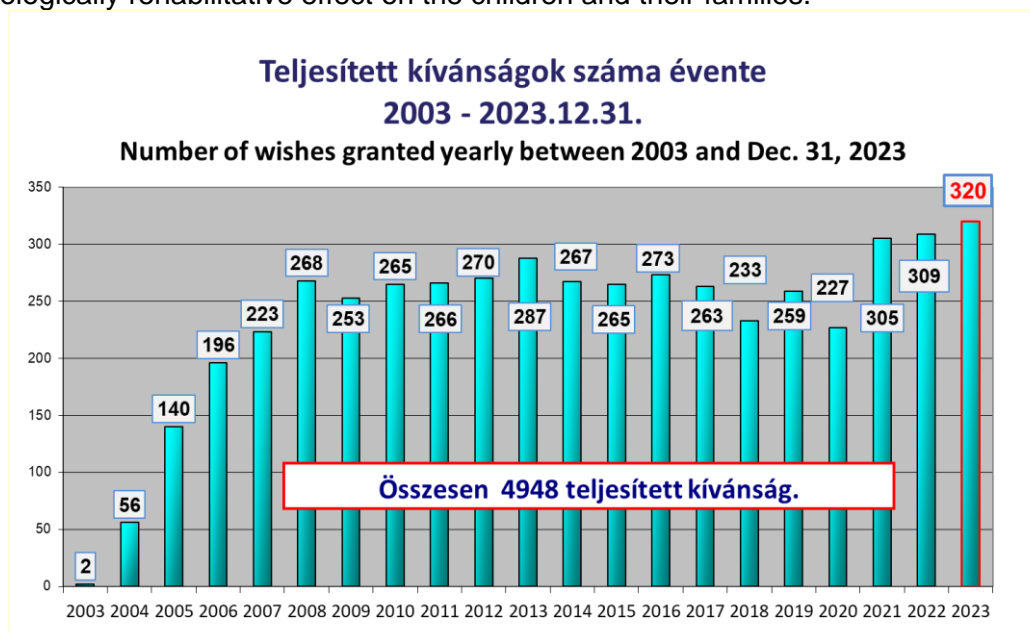

This objective is being pursued by fulfilling the wishes of sick children (normally one wish by each child) and by the playful teaching of magic tricks that divert their attention from the often-painful treatments, reduce stress and support their therapies.

Granting of wishes

An eligible child may be reported to CSODALÁMPA directly by the child, his/her parents or guardian, the treating physician or other medical staff contributing to his/her treatment or a CSODALÁMPA volunteer. Except for those with relapsing disorders or having more than one life-threatening illness, each sick child may have one wish, something that is dearest to his or her heart.

CSODALÁMPA does not offer a pre-set 'menu' of wishes. Instead, we always try to ascertain exactly what the child truly desires and then fulfil that wish with the help of our sponsors and country-wide network of volunteers.

The mission of CSODALÁMPA is to fulfil wishes: the joy caused by granting a wish has a psychologically rehabilitative effect on the children and their families.

The following conditions must be met for a wish to be registered:

- The child must be aged between 3 and 18 years at the time of registering the wish
- A physician must certify the nature of the illness and must give consent to the wish being granted
- The guardian must also consent to the wish being granted

The physician's consent is essential due to the circumstances of the granting of a wish (for example, the assessment of post-operation condition, fitness to travel or to be part of a crowd at a rock concert or soccer match or need for the presence of an ambulance or a doctor when the wish is fulfilled, etc.).

The range of illnesses that bring children under the mandate of CSODALÁMPA is unfortunately very wide – hundreds have been identified - and therefore we do not use a definitive list of illnesses to determine eligibility; instead, we base our decisions on accepting wishes on the recommendations of our doctor volunteers and the treating physicians.

To our knowledge, at any one time, thousands of children in Hungary are eligible to be granted a wish by CSODALÁMPA.

CSODALÁMPA's "Healing with Magic"

"Healing with Magic" is based on David Copperfield's "Project Magic" but adapted to the conditions of the Hungarian children's clinics by Botond Kelle, magician, who has provided professional leadership of the program.

"Healing with Magic", through simple and more complex magic tricks, contributes to the physical and mental rehabilitation of children. The tricks used in the program improve the physical and mental capabilities of children, reduce the stress induced by the treatments and the hospital environment in general, and even motivate them to implement the sometimes-painful physio-therapeutical exercises, for example by teaching a new trick as a reward.

Currently, the "Healing with Magic" program is used successfully daily in several wards of 15 large children clinics country-wide.

Our volunteer magicians teach the tricks to hospital staff (doctors, psychologists, therapists, and nurses) who in turn teach the same to children during their treatments. The volunteer magicians also teach some of the children directly and provide continuous education to medical staff.

The props and the description of tricks are provided to participants free of charge by CSODALÁMPA, using the contributions of our sponsors. Since the beginning of the program, we have provided several thousand magic boxes to children and their treating physicians and hospital staff with the help of participating hospital

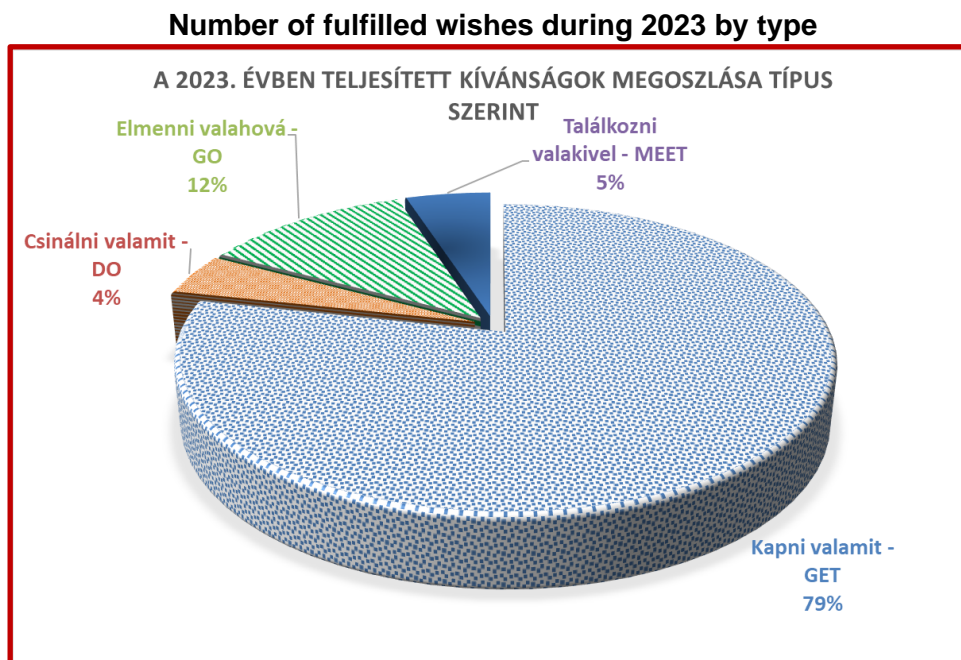

wards.

We hope that during 2024, we will be able to introduce this program to more clinics and clinical wards and that our volunteer magicians will be able to continue to teach hospital staff and the sick children directly, contributing to their recovery.

1.2 Types of wishes granted and their geographical distribution

1.2.1 Types of wishes granted

In 2023, we managed to fulfill 320 wishes with the help of our volunteers and sponsors.

The share of “getting something” wishes returned to pre-COVID level. Of the 320 wishes, 79%-a (2022=81%) were for objects (toys, mobile phones, swing sets, TV sets, computing devices, etc.), including 77 computing devices, 22 mobile phones, 55 indoor or outdoor toys (for example, children’s cars or outdoor playgrounds), and 21 bicycles or rollers.¹

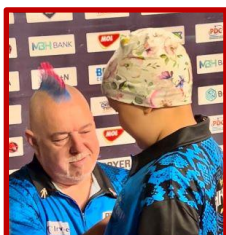

Here are a few examples of the most interesting wishes fulfilled in 2023: five-year old Lilla asked for a personalized song, which was fulfilled by the Unique band.

There were also adventures: 16-year-old Barnabás implemented a tandem parachuting exercise, while 17-year-old Regő invited his classmates to a big laser tag battle.

¹ The strong demand for laptops and mobile phones is justified by the fact that the children spend a very long time in hospital, often far away from their homes, families and friends. Depending on their treatment, they may have to stay in a sterile environment, even more isolated from the rest of the world. **They are all private students, and these devices help significantly in their studies.**

Fifteen Hungarian or foreign famous persons met with our CSODALÁMPA children, including Nóra Ördög, Jenő Rácz and the Valmar Duo, and among the foreign celebrities, Gordon Ramsay and Peter Wright, two-time darts world champion, also brought joy to the children.

The 24 requests for city visits or holidays included foreign trips (London, Roma, Lisbon) but the majority of destinations were in Hungary, from Visegrád to Nyíregyháza, and of course, Lake Balaton was also included in the wishlist.

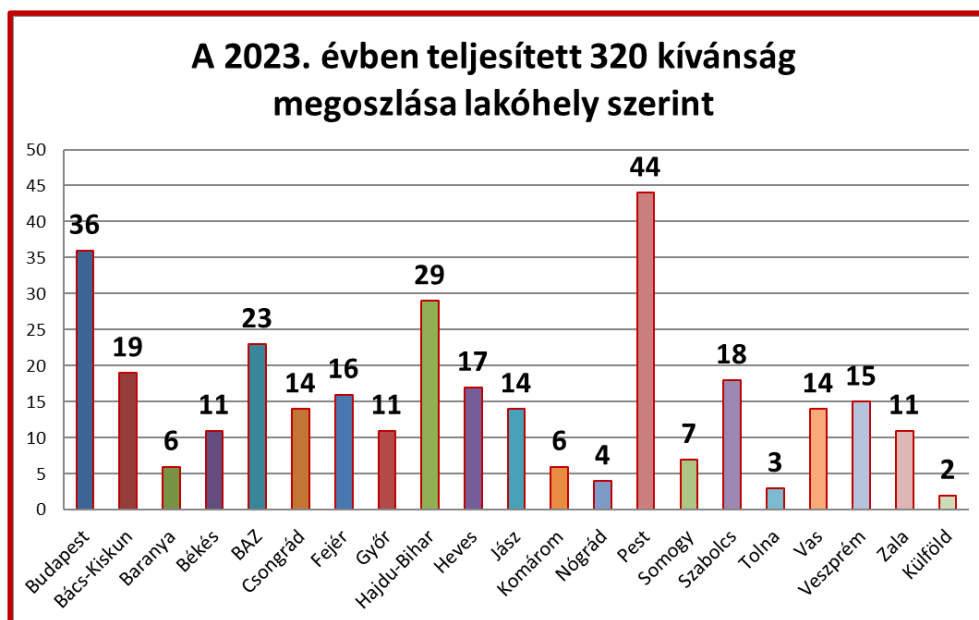

The list of wishes fulfilled in 2023 is included in Appendix 3.

1.2.2 The geographical distribution of granted wishes

The 320 wishes were received from and granted in every county of Hungary and Budapest, as in previous years. In 2023, there were 2 children who had their main places of residence abroad but were treated in Hungary, as well as a Ukrainian child who stayed in a refugee camp.

Geographical distribution of granted wishes (2023)

The distribution shown above significantly depends on the location of the clinics where the children are treated and the possibilities of our volunteers.

1.3 Other activities

1.3.1 Events and appearances

In 2023, we participated in 33 campaigns in a broad sense. Of these, 18 were fund-raising events organized by private individuals, schools and companies, for example, cookie sale, participation in benefit sport events (UltraBalaton, 100 km walking), collection of donations from company colleagues, as well as successful fund-raising events by influencers.

Naturally, in 2023 we again held our country-wide meeting of volunteers. We also gathered with our sponsors to celebrate our 20th anniversary. We took this opportunity to thank them for their continuous support, allowing us to cause joy to 5,000 children, contributing to the success of their treatment and recovery.

During the autumn of 2023, we, once again, organized our programs for students.

The 13. "Walk for sick children", organized by the József Eötvös high school, took place on Margitsziget, where several other high schools from Budapest also participated. The number 13 brought good luck; of all such events, this one registered the largest number of participants. In gorgeous weather, over 300 students shared Palkó's happiness, once his wish was fulfilled by them.

The 17. "Walk-the-Wish", organized by the American International School of Budapest, started from the gym hall again, and took place in the woods next to the school with the participation of several hundred students and parents.

Using the donations from students we fulfill wishes, and whenever possible, the students are present when such wishes are granted so that they can report back on their experiences to their schoolmates.

The British International School Budapest, and the students and teachers of the Deutsche Schule Budapest also helped our mission with several actions.

In June 2023, we celebrated the 20th anniversary of Csodalámpa with a benefit dinner in the ballroom of the Corinthia hotel. Our guests enjoyed the special show of the children troupe of the internationally renowned Attraction Shadow Theatre, tailored to our anniversary, as well as the performance of stand-up comedian, Gergely Litkai, with Gábor Garami hosting the evening. Naturally, we also fulfilled wishes on the spot with the help of our supporters.

In November 2023 (on the very day when the first wish was granted), we also held the first Magic Day with the support of Vígszínház to celebrate our 20th birthday. The theater performed its most successful musical „A Padlás” (The Attic), in part with increased ticket prices to support the mission of Csodalámpa with the extra revenue.

The last event of 2023, as earlier, was the third benefit art exhibition in Fashion Street, presenting the paintings of Bea Hullán and Shane 54. As before, on December 6. CSODALÁMPA children turned on the Christmas lights.

We also held two press conferences, albeit on the same topic, last year. Péter Merő, internationally renowned designer joined our supporters and designed special bags for us, which two major retail chains sold before Christmas to contribute to our mission. This meant a significant boost to the image of the Foundation and a substantial contribution to our funding.

1.3.2 Other interesting facts

In 2023, after 20 years, we implemented a change of image: based on the suggestion of our ambassadors, we updated our logo and gradually changed the colors used in our publications. We also plan to renew our website in the near future.

International relations

2023 was also a year of strengthened international relations. We entered into partnerships with similar wish-granting organizations from the Czech Republic, Poland, Estonia and Spain. The Czech Golden Fish (Zlata Rybka) Foundation celebrated the fulfillment of its 1000. wish and they wanted to celebrate this landmark event with similar organizations. We held a most useful exchange of experience, including our methods, practices and problems, before the ceremony. We agreed to continue this collaboration, in a loose organizational format, for example, with helping each other in reaching out to famous people. The collaboration also allows us to jointly apply for EU support (available for a consortium of organizations operating in EU member states for multi-country activities but not for individual foundations). For capacity reasons, the Golden Fish Foundation undertook to coordinate the collaboration and the preparation of the application.

Magic Bugs

In 2023, our supporters launched eight fundraising programs on our www.csodabogarak.com website, of which one was a sport program while the others included the collection of donations by companies. We intend to encourage more activities under this initiative in 2024.

Ethical charitable fundraising organization

The CSODALÁMPA Foundation continues to be eligible to use this title.

The Self-regulating Body of Charitable Fundraising Organizations (Adománygyűjtő Szervezetek Önszabályozó Testülete or ASZÖT) supervises every year those organizations that use this title whether they meet the mandatory transparency requirements. The CSODALÁMPA Foundation is one of about 50 civil society organizations that may use this title and the associated logo on their website and other materials.

2. Our volunteers- the national wish-fulfilling network

In accordance with Law LXXXVIII of 2005, our Foundation is registered as a volunteer involving organization.

In 2023, we had 193 volunteers across the country, this number is practically unchanged from the previous year. In addition, dozens of volunteers assist us in granting wishes, help often in the work of the office, as well as in the organization of events.

The “traditional activities” of our volunteers--such as talking to children, inquiring about their wishes, reporting them to the foundation and the actual granting of wishes—would not have been possible without our hospital volunteers in 2023 either. They deserve every praise, as they spared no time and effort for the children, despite their ever-increasing workload due to the well-known staffing shortages.

Only this way, with their devotion, the commitment of our colleagues and sponsors, could we achieve the fulfillment of 320 wishes in 2023!

In 2023 again, the executive director of the Foundation and her colleagues visited the clinics across the country and the volunteers working in the regions.

During these visits, they met with the treating physicians of the “CSODALÁMPA children” and thanked them for their enormous help. They also reported on the activities and results of CSODALÁMPA, presented the “Healing with Magic” program, and the participants could even familiarize themselves with a few magic tricks.

As a result of these visits, we concluded cooperation agreements with several clinics for the introduction of the “Healing with Magic” program, and many of these initiatives have already been launched with the support of local magician volunteers. In addition, since these visits, eligible children were reported from several such wards from which previously no children were reported to CSODALÁMPA.

Major tasks of our volunteers:

Our volunteers are in charge of finding out the 'real' wish of a child; liaising with the parents, the physicians and the children, as well as the local sponsors; and organizing and documenting the fulfilment of wishes. Several of our volunteers also provide administrative assistance in our Budapest head office (administration, translation of documents, managing the website, etc.), or occasionally represent the Foundation at the events of local sponsors.

Student volunteers: Our Foundation has signed contracts with several high schools, whereby their students may undertake voluntary work for CSODALÁMPA under the provisions relating to social service activities at schools. We hope that in 2024, we will be able to show good examples of volunteer work and solidarity with sick people to our student volunteers.

Ambassadors: Our charity ambassadors are high-profile personalities – company managers, entrepreneurs – who have agreed to our request to act as ambassadors of our Foundation and promote its activities. They support our Foundation through their experience, advice, and contacts. Among others, they helped reshape the image of the Foundation, including the updating of its logo.

Our goal is to improve the stability of our country-wide wish-granting network and gradually expand its coverage in the country.

3. Operating conditions, financial status, 1% campaign

In 2023, CSODALÁMPA operated with two full-time and two part-time employees. Accounting, PR and marketing were outsourced.

During 2023, we spent 8.9% of the donations for marketing activities (including the 1% campaign) and events for fundraising purposes.

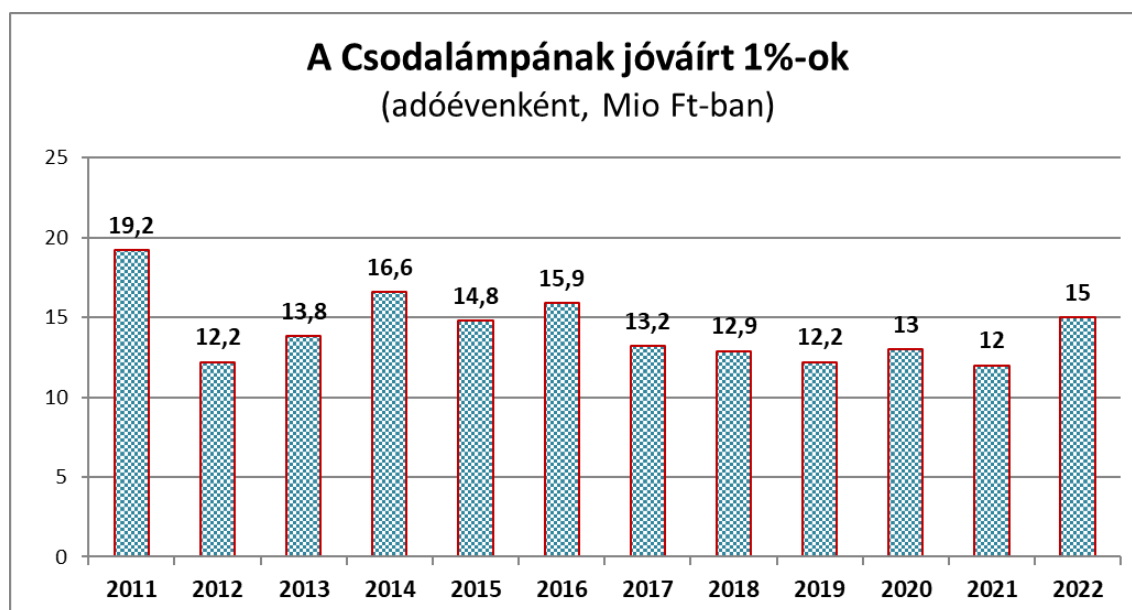

Last year, we received **709 donations for Ft 131,467,000**. In terms of value, 65% came from companies and 35% from individuals (in terms of numbers, 20.5% and 79.5%, respectively).

In 2023, we achieved an accounting surplus of Ft 20,848,000 (2022 = Ft 31,766,000) which will, naturally, be used for the mission of the Foundation.

The status of 1% contributions

Based on the tax year of 2022, in 2023 we received **Ft 15,388,000 in the form of 1% contributions**, Ft 3 million more than in the previous year. Finally, the number of contributors also increased; **1,464 taxpayers chose CSODALÁMPA** (2022=1138 persons). We thanked in emails or letters all the 269 contributors (2022=295) who gave us their contact details.

1% contributions for CSODALÁMPA (in Ft millions)

In 2023, the Foundation's balance sheet total was Ft 156,488,000; total revenues amounted to Ft 149,557,000. **The 1% contributions represented 9.05% of the former and 10.3% of the latter (i.e. of total revenues), which is a significant magnitude.**

It is important to note that we did not quantify the value of our volunteer network's contribution – but suffice it to say that there would be no CSODALÁMPA without them.

The cost of fulfilling a single wish varies between ten thousand-plus Hungarian forints and hundreds of thousands (trip abroad with an accompanying parent and a CSODALÁMPA coordinator).

In 2023, the earlier trend of significant price increases of „technical” wishes, such as laptops, phones, etc. continued. By the end of the year, even the cost of domestically produced goods (e.g. swings, slides and other outdoor toys of which we had 23 in 2023) also increased substantially. This caused severe problems for us as we needed to raise significantly more funds to bring joy and provide strength to a growing number of eligible children.

As a result, **in 2023, the average gross cost of the fulfillment of a wish (total cost divided by number of wishes granted during the year) amounted to Ft 402,219 (2022=326,524).** This means an increase of 18.8%, which is slightly higher than the average annual inflation for 2023 (17.6%, Central Statistical Office).

It is important to note that during 2023, once again, we managed to save costs by achieving discounted prices. **The estimated value of these discounts amounts to Ft 23,434,000.** If we take this into account when assessing the average cost of fulfilling a wish, the magnitude of saving is quite significant.

We aim to pursue a prudent investment policy. We invest our funds, which are temporarily unused, in government paper with a maturity of 3-6 months, to moderate the impact of inflation.

4. Media coverage in 2023

In 2023, our supporters launched 8 projects on our „Magic Bugs” website, primarily in the summer and autumn seasons.

With the kind support of Wanadis Kft. Maileon, our partner, we continued to publish a newsletter every one or two months, in which we informed our sponsors, the parents, and our volunteers about the most interesting wishes we granted and the key events we organized.

In 2023, Csodalámpa had 17 media appearances. In most of such cases, we were presented through our supporters (showing their contributions), nonetheless, we experienced increased media attention to our events and collaborations, compared to the previous year. Our executive director gave a interview to ATV which was broadcast in its weekend program, and several online interviews appeared during the course of the year, strengthening our media presence.

The list of media appearances is in Appendix 2.

In 2023, several major media firms also provided dedicated support for CSODALÁMPA's appearances. These included portfolio.hu, port.hu, MédiaWorks, and Index, Observer and HVG supported us in our 1% campaign. The requisite media portfolio was the work of Inspirit PR Agency under its corporate social responsibility strategy. Inspirit has been our supporter from the outset.

From the autumn of 2023, a dedicated professional has helped manage our social media appearances. We post at least once a week on Facebook, Instagram and LinkedIn, and also share partner events, strengthening our social media presence. The increased funding for our 1% advertising campaign resulted in a better outreach that we will continue to intensively manage.

We have about 34,000 followers on Facebook, and we see an increase in the number of followers on our Instagram and LinkedIn platforms. In addition to the targeted advertisements, the primary objective was to strengthen our brand.

5. The social impact of CSODALÁMPA in 2023

It is often quite difficult to quantify a project's social impact. In our case, a relevant marker would be the estimated number of people reached through the wishes granted. These include the children themselves, as well as the members of their family, the doctors, the nurses, the medical pedagogues, our volunteers, and the visitors to our Facebook page and website. We arrive at estimated numbers by applying multipliers for each category, as shown in the table below.

The number of “Magic Bugs”—those sportsmen supporting CSODALÁMPA, the organizers of “Magic Bugs” events and contributors—is underestimated since the organizers and participants of such events reach a much larger number of people than shown in the table below during their fundraising efforts, as they widely share information about the events.

Affected persons/entities	Multiplier	Estimated number/ 2023	Comment/explanation
Csodalámpa children	1	320	Number of wishes granted
Parents, siblings, close relatives	4	1 280	We assume that the number of „missing parents” (single-parent families) is compensated for by the varying number of siblings + grandparents and other relatives
Health professionals	2	640	Realistically, the multiplier may be larger than 2, but each health professional works with more than one child
Volunteers	1	193	Number of active volunteers only
"Magic Bugs"	3.5	840	Charity sportsmen, teams, event organizers, participants, concert audience: 240 persons; multiplied by 3.5 as information is shared with others
Newsletter addressees	0,01	600	Our newsletter is sent out 1-2 times per month to 12 x 6,000 addresses per year. 10% of recipients open the newsletter
Number of sponsors in 2023	1	709	Total number of companies and individuals
Internal communication among supporters	3	1 350	Private individuals and corporate employees, 50 persons/event (supporters and participants of corporate and private activities and events). 450 in total.
Followers on Facebook	0.15	5 105	Around 15% of our 34,038 followers actually read our news (FB statistics)
Visitors to Csodalámpa.hu in 2022	1	39 000	39 000 according to Google Analytics
Total number of people reached:		50 037	

Based on the 320 wishes granted, and using cautious assumptions and estimates, in 2023 once again, CSODALÁMPA's activities impacted the lives of tens of thousands of citizens, hopefully in a positive way.

Budapest, May 28, 2024.

Gábor Nagymarosy

Under Court order No 16.Pk.60.549./2003/13 of 11 October 2013, the Court of Budapest has accepted under the provisions of Law No. CLXXV of 2011 the revision to the articles of incorporation and recognized CSODALÁMPA Foundation as a public benefit organization, the conditions of which continued to be met.

Excerpt from the Deed of Foundation of CSODALÁMPA Foundation:

3. THE PURPOSE OF THE FOUNDATION

3.1.1. The purpose of the Foundation is to fulfil one-one wish of such children between age 3 and 18 who are suffering in life threatening illnesses and are under permanent medical care due to this, and whose families are unable to fulfil the wishes due to lack of financial funds or the type of the respective wish.

The purpose of the Foundation is to make the life of a child with a serious permanent illness more pleasant and temporarily more carefree, therefore to strengthen the hope and belief in curing of the child and his/her family and to give strength and mental support to bear the illness and the treatments. If the child requires and it is feasible due to the resources of the Foundation, the Foundation keeps in touch with the child after the fulfilment of the wish or the rehabilitation in order to further strengthen the curing and the entire rehabilitation process.

3.1.2. Pursuant to section (1) 34 of Act CLXXV of 2011 on right of association, on charitable organizations and on operation and support of civil organizations, the Foundation performs the following non-profit activities for public interest without aim of gaining profit: it carries out curing and medical rehabilitation services in connection with public health care activity through the fulfilling of wishes in accordance with section (1)-(2) 35 of Act CLIV of 1997 on health services. The public health service tasks are statutorily carried out by state and municipal bodies; therefore the activity of the Foundation qualifies as an activity performed in the public interest.
